

# Alliance Cosmique - Technical Rider

## About Alliance Cosmique

Visual artist Symbiose and musician IUNI collaborate to create an immersive A/V show. Symbiose creates the visuals live using liquids and chemical reactions. While IUNI unfolds his neoclassical, electronic universe, blending voice, piano and synthesizers.

### Included in the performance

- Artists' visual and sound equipment (see list P3).
- Projection screen if needed.

#### Show Duration

30 minutes to 1 hour, with the possibility of playing two 30-minute sets

#### Suitable for All Ages

Recommended for ages 7 and up

#### Price (Excluding VAT)

Price for 1 performance day: €2100

Price for 2 performances day: €3000

Price for 3 performances day: €3900

Sound engineer if needed: +€200/day

#### Setup Time

Setup + Sound Check: minimum 2 hours 30 minutes

Setup in Tulle: +30 minutes

Dismantling time: 45 minutes

# The Reception Area

The show can take place in an immersive space but is not limited to this. We can create an immersive effect by projecting onto a wall or on our transparent tulle screen.

## The Tulle Screen

Our adaptable staging transforms any space into an immersive venue.

The detachable tulle screen (6x2.8 meters) easily adjusts to different environments and simplifies setup.

Positioned in front of the musicians, who can be glimpsed through its transparency, the tulle adds a dreamlike quality to the staging.

## Requirements

### Stage Footprint

Minimum surface: 4m x 2m

### Connections

3 sockets for sound and 3 sockets for video.

### Video

The video can be played on a large LED screen if the venue is equipped. Otherwise, video projection is recommended.

*\*If the venue is not equipped, we can provide our equipment for rent or advise on the equipment to rent.*

#### **Video projection**

Type of projection area: white wall behind the stage, projection screen, or tulle

Projection area surface: minimum 5m x 2.8m

Projector specifications: Power  $\leq$  6000 lumens / Resolution FHD or higher / Contrast  $\leq$  1,000,000

#### **Option: LED Screen**

LED screen surface: minimum 4m x 2.25m

LED screen resolution: Minimum 4K

## Optional

Acoustic Piano: If your venue has an acoustic piano, we can use it for the performance. It will add a theatrical presence to the show and enhance the sound quality.

### **Pre-Installation Requirements**

Please provide us with the contact details of your technical manager or stage manager, as well as photos of the space.

# Our Equipment

## Sound Equipment

Sound Patch 17 In/4 Out:

- MOTU UltraLite Mk5 Sound Card (10 Outs)
