

Q U A R T Z

_ QUARTZ

QUARTZ is a monumental rock made from a set of light sources. The exceptional size renders this enigmatic object visible from a great distance and invites closer inspection. Standing at the foot of the rock, the mineral becomes mystical as visitors are dwarfed by its scale. The meditative feeling is enhanced by a cosmic soundscape that accompanies the installation. Symbolic and essential, QUARTZ integrates subtly into its landscape and enters into an easy dialogue with the surrounding architecture. The verticality of the installation and its wireframe geometry generate an overall feeling of lightness, amplified by the soft character of the object.

_Project:	Audio visual installation
_Artist:	Nicolas PAOLOZZI
_Sound Design:	Baptiste MARTINEAU
_Production:	MODULE X Constellations de Metz

Wind resistance: 100km/h

_Dimensions:	ø8,7m ; h=13 m
_Weight:	1800kg
_Ballast:	3000kg to define
_Power:	14KWA (4 x 3500W; 220V; 16A)

_ SCHEDULE

* To be provided by the organizer
 ** Can be managed by the organizer

Requirements / Days	1 day	4 days				X days	2 days		1 day
	EQUIPMENT & TEAM ARRIVAL	INSTALLATION (3 people)				EXHIBITION	DISMANTLING (3 people)		EQUIPMENT & TEAM RETURN
TASKS	equipment unloading	structure pre-assembly	structure lifting	lighting system installation	sound system installation & test run		lighting & sound system removal	structure dismantling	equipment loading
TRANSPORT**	truck 7,3 x 2,44m or container DRY 20 feet (forklift needed for unloading)								truck 7,3 x 2,44m or container DRY 20 feet (forklift needed for loading)
CRANE**			x1 Crane with driver lifting capacity: 500kg at 20 m height from 10 m distance				x1 Crane with driver lifting capacity: 500kg at 20 m height from 10 m distance		
BOOM LIFT**		boom lift delivery	x2 articulated Boom Lift 20m high						boom lift return
WEIGHTS**		concrete ballast delivery	concrete ballast: 3 x 1000kg or 6 x 500kg (movable with a hand pallet truck)						concrete ballast return
POWER*	power supply setup	TOTAL 14KVA = x4 PC16A; 220V; 3500W							power supply return
SECURITY*		x1 security agent at night				x1 security agent 24/24h	x1 security agent at night		
WORKING AREA*	10x10m (please provide fences)	20 x 20m (please provide fences to secure the area)				10 x 10 (please provide fences)	20 x 20m (please provide fences to secure the area)		10 x 10m (please provide fences)
STORAGE*		equipment & machines on site				10m2 for equipment - parking nearby for boom lift	equipment & machines on site		
SOUND SYSTEM**			sound system delivery	- x4 Speakers D&B MAX2 (NLT4) or similar - Amplificator D&B D20solo (NLT4) or similar - x3 cable Speakon (NLT4) 5m - x1 Adapter Cable XLR + Mini Jack 1m				sound system return	

_ P I C T U R E S

_ SUSTAINABILITY

MATERIALS & TECHNOLOGY

We mainly work with steel and aluminium, both metals that are resistant over time and can be **recycled over and over!** Our building elements are locally manufactured in Lyon region in order to limit intermediaris and support the local economic system. We exclusively use the LED technology for our lighting system , to reduce our energy consumption.

BUILDING TIME

Assembly and dismantling phases are carefully planned to be as short as possible in order to **don't waste time, reduce noise levels and limit the vehicles' intervention on site.**

RE-USE

All elements of our installations are tailor-made, designed by Nicolas Paolozzi. **Each piece can be used many times on different projects**, which limits unnecessary manufacturing and stock, in a logic of reusing, optimization and environmental impact reduction.

COMPACTNESS

We integrate the transport issue from the very start of the project design. By reducing the installation volume to a minimum during transport and use the smaller vehicle possible, **we minimize our fuel consumption and carbon footprint.**
