

Falling

sandrine deumier 2019

Virtual reality animation | Duration : 14:50 | Silent

Synopsis :

Falling is the study of a collapse.

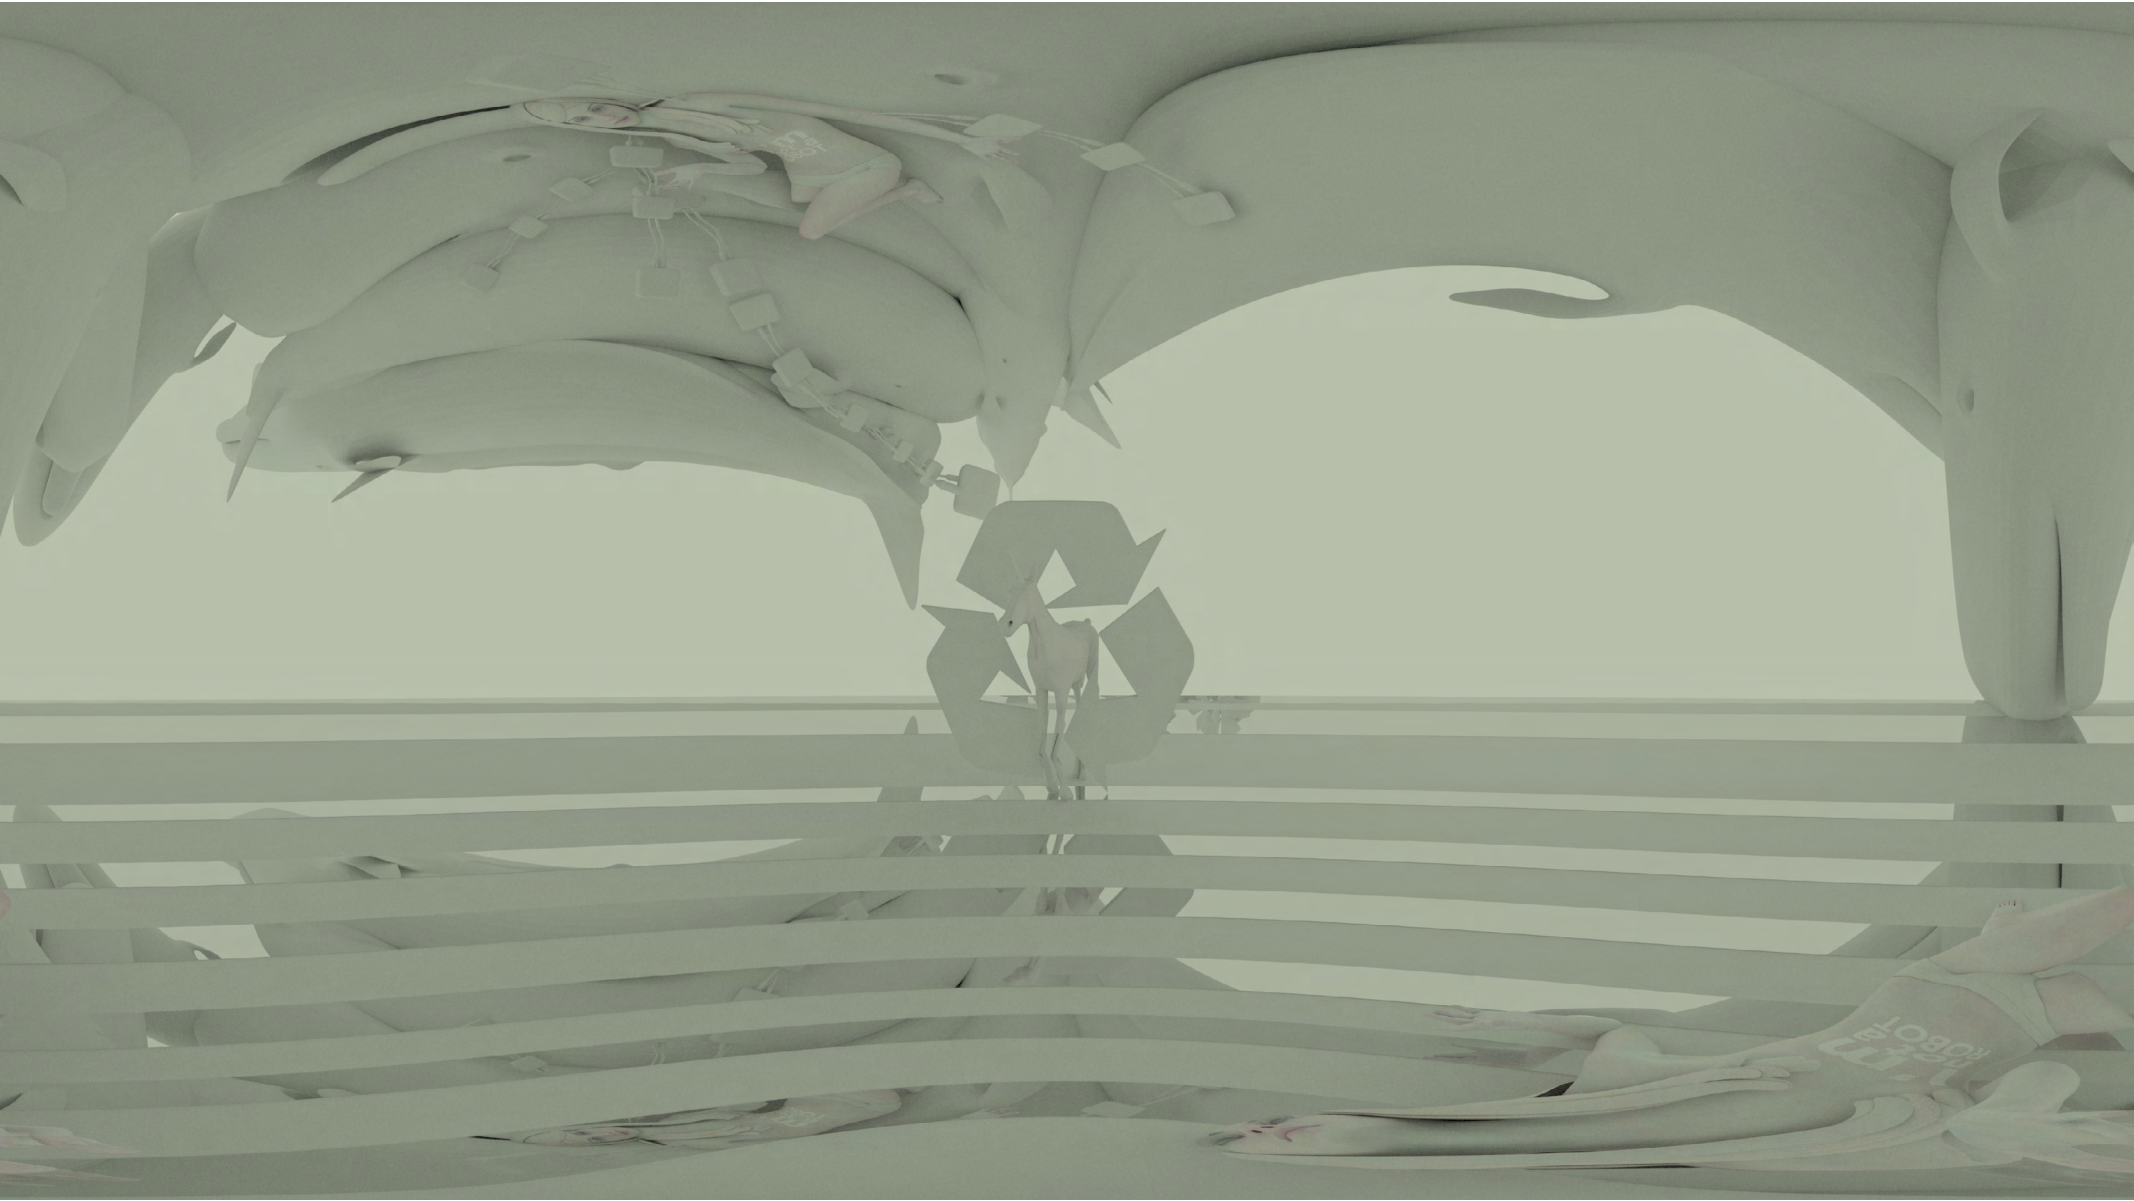

Consisting in 9 collapsology scenes created from Internet culture imaginaries, this artwork tries to interrogate a possible dismantling of the human practices of nature subjection and species classification through a search of eco-feminist postures. Short-circuit collective imaginations from the Internet to develop new utopias and trying to invent sustainable imaginations.

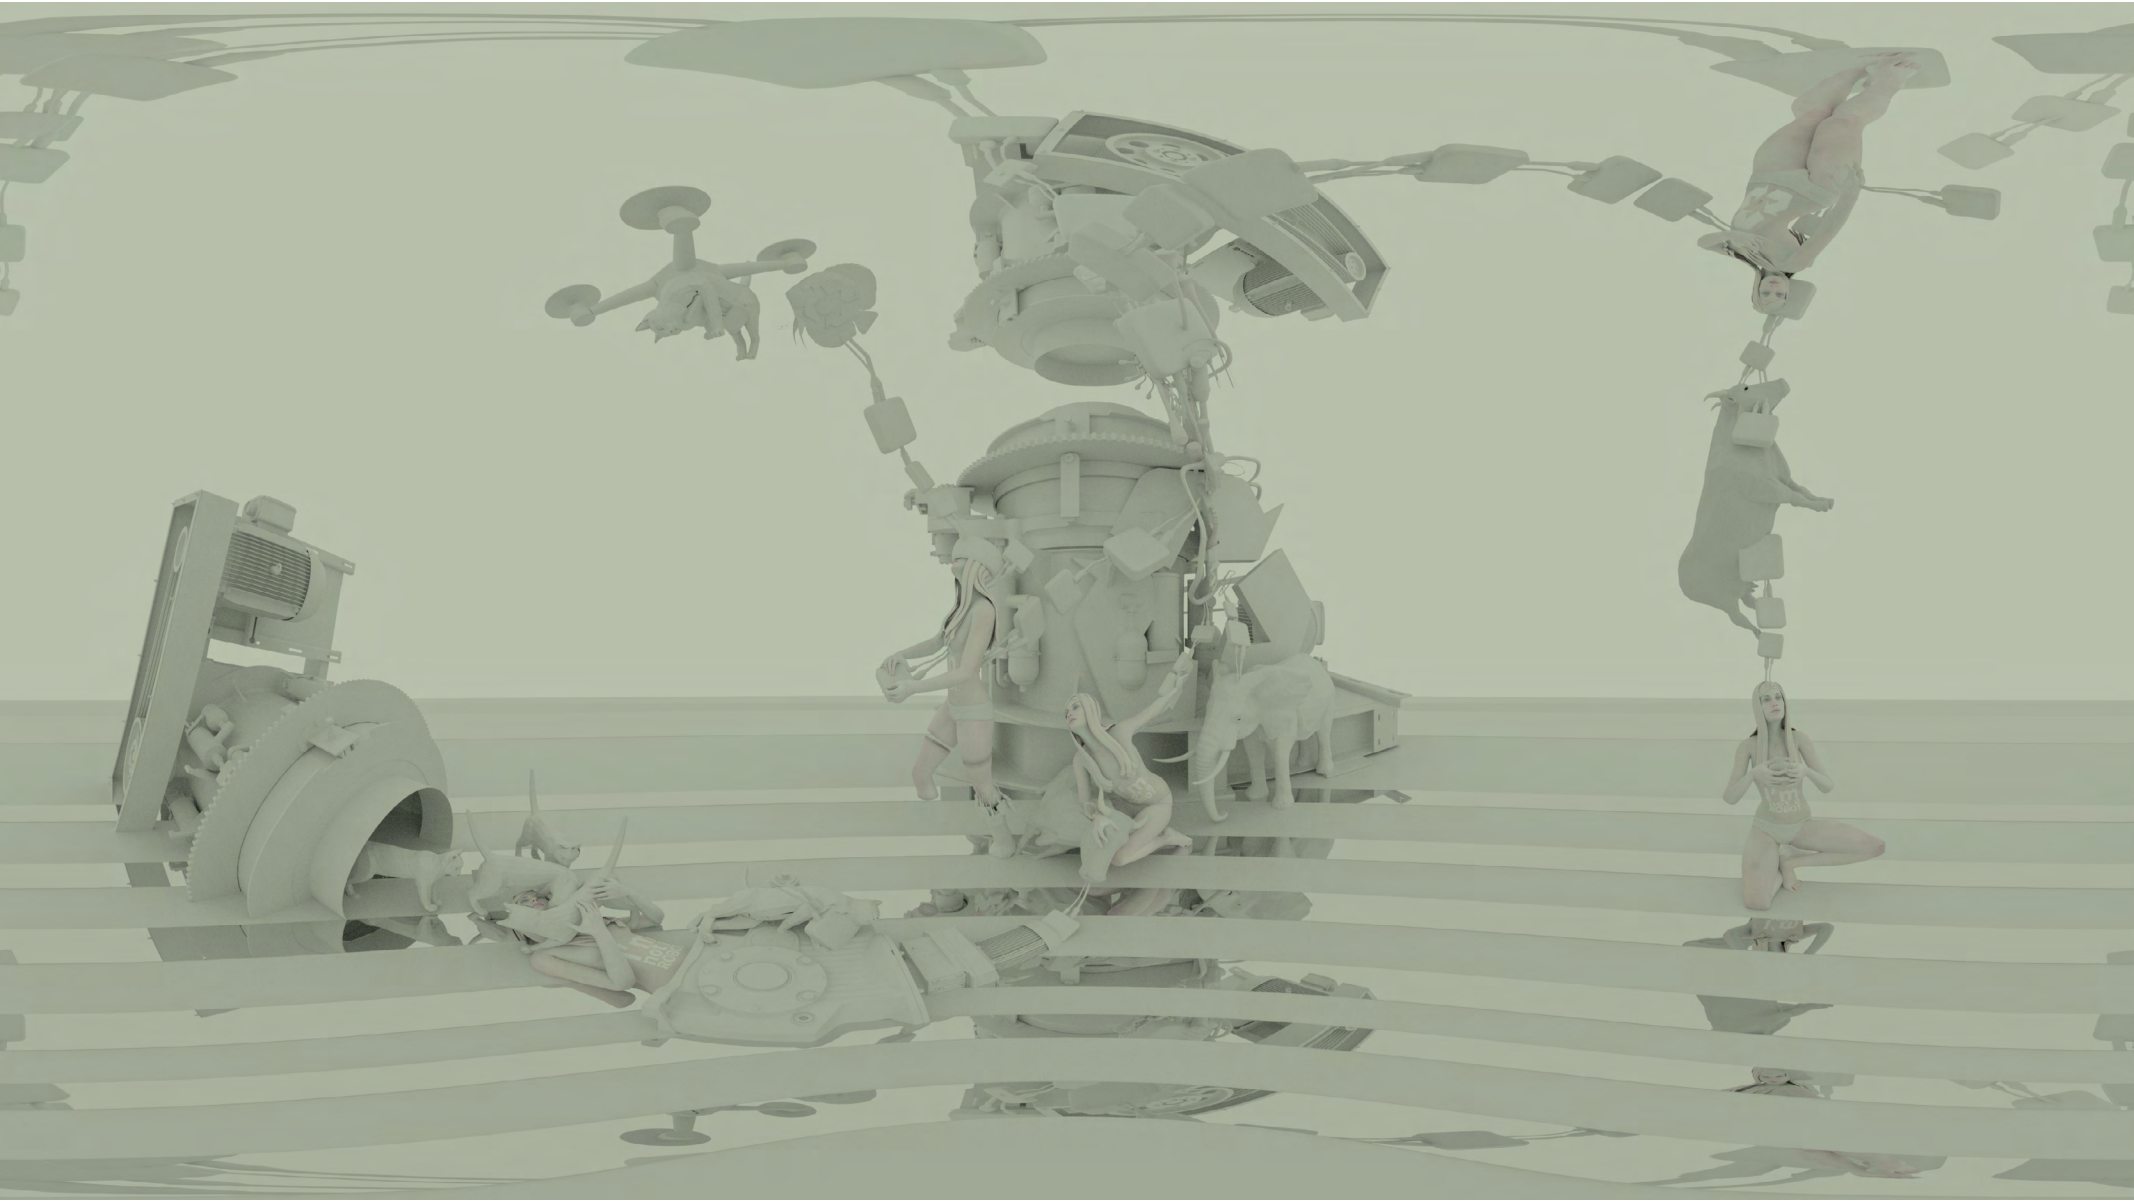

With the support of Casa de Velázquez | Hangar.org | Institut Français Barcelona
