The Fifth Sleep - release 2015

Narrative 360 - PC - 5'

Inspired by the science fiction film Fantastic Voyage, The Fifth Sleep is a journey inside the most mysterious of all organs, the brain. You are participating in an experimental project to test the Proteus, a nanorobotic camera that can be injected inside the human body. Blood and veins aren't all that you encounter, as your journey will take you through biological landscapes at a microscopic level. As you attempt to wake the patient from his coma, you will realize he has different plans and will take you on an amazing journey through his world and his dreams.

THE CAVE

The Cave - release 2015

Narrative 360 - PC - 4'

Go back in time and cross landscapes in the mighty glacial age (30,000BP) where you discover and explore a mysterious cave. Trekking through at a slow, poetic and contemplative pace, you're confronted by a wall of prehistoric drawings and are overcome with their strong aura, as if you were the first to discover them. Deep in the cave, the drawings reveal a buried supernatural force hidden within the soul of the stone and transport you to another dimension. The experience is inspired by real paintings and observations which have been collected from experts in the field.

The Forbidden City - release 2015

Narrative 360 - PC - 3'

The Forbidden City was the Chinese imperial palace from the Ming dynasty to the end of the Qing dynasty. It is located in the center of Beijing, China, and now houses the Palace Museum. It served as the home of emperors and their households as well as the ceremonial and political center of Chinese government for almost 500 years. Built in 1406 to 1420, the complex consists of 980 buildings and covers 72 ha (180 acres). The palace complex exemplifies traditional Chinese palatial architecture, and has influenced cultural and architectural developments in East Asia and elsewhere. The Forbidden City was declared a World Heritage Site in 1987.
