Flou [Blur]

Flou #1 - Artwork in
reference / [https://
vimeo.com/218019266](https://vimeo.com/218019266)

Required exhibition space:

- space with air presence

Materials: one-way mirror film, stainless steel wires, steel profiles

Dimensions: height = 3.1m, variable length = 7 to 10m

Principle of assembly:

- the artwork is fixed, at each of its ends, at the level of walls or trees
- 6 fixing points are to be foreseen on each side to ensure the maintenance of the film

Human and temporal needs :

- Preparation: realization by an ironworker of the steel profiles (approx. 2 days)
- Assembly: 2 people during 1 day, with rolling scaffolding or stepladder:
 - assembly of the profiles
 - pre-assembly of the film on the profiles
- Dismantling: 2 people for 1/2 day, with rolling scaffolding or stepladder

Material needs (to be foreseen) :

- Fabrication of the steel profiles by a local ironworker (approx. 2 days)
- Local order of the one-way mirror film and stainless steel wires
- For the assembly/disassembly: rolling scaffold or stepladder
