

# Technical Data : Floating cities

## Printing the file

1/ Drawing of the fresco to be artwork on tarpaulin or fabric, ideally eco-responsible, in 2 \* 2.57 m format or other smaller homothetic format depending on your location (an HD version is also available for larger formats).

Printing instructions: the file is delivered with a black border. Please note that, depending on the print supplier you choose, you may be asked to add a black border to create an edge or curl (fabric or tarpaulin).

2/ We can have the work printed and sent to you at an additional cost (subject to quotation).

## Printing of the exhibition communication kit

- Visual presentation of the exhibition
- Visual presentation of the biographies of the two artists
- Visual of how to use the application

The files are delivered to you to be printed, ideally in A3 format or larger.

## How to use the Under The Starry Vault application

### Available for Android and iOS

- have sufficient wifi. If not, you can pre-download content onto your tablets for a better experience, even offline.
- stand in front of the image, about 30 centimetres from the work, to animate it and remain in front of it for the duration of the animation.
- if you're presenting the experience as part of an event, use a tablet for a group experience; for an individual experience, invite the audience to bring their headphones or earphones for the best sound experience.

## Additional documents available in English, French and Portuguese.

### In Arabic from the end of 2025

- education kit
- art kit
