

# Technical Sheet: The universal forest

## Printing the file

1/ Drawing of the fresco to be printed on tarpaulin, fabric or paper, ideally in 2 \* 2m format (video attached)  
(An HD version is also available for larger formats)

**Printing Guidelines:** The file comes with a black bleed. Please note, depending on the service provider you choose for printing, you may be asked to add black edging in order to create an edge/hem (fabrics & tarpaulin).

The original file of the fresco is **fresque-impression.pdf**

A second file with overhangs also exists: **fresque-impression-bordnoirs-renfort-bache.pdf** - it has already been used with Pixartprinting.fr - printing on tarpaulin - PVC Extreme Classic 500 g/m<sup>2</sup> - perimeter reinforcement for a surface of 200 cm x 200cm.

The surface area of the overhang to be added to the initial file will depend on your service provider/and the choice of the type of support (eco-responsible tarpaulin, PVC tarpaulin, fabrics, etc.)

2/ We can have the fresco printed and send it to you at an additional cost (on estimate).

## Printing of the exhibition communication kit

- Visual presentation of the exhibition
- Visual presentation of the biographies of the two artists
- Visual instructions for the application

The files are delivered to you to print ideally on A3 format or larger.

# Tips for Using the Under The Starry Vault App

## Available for Android and IOS

- have sufficient wifi. Otherwise, you can pre-download the contents to your tablets for a better experience, including offline.

- position yourself well in front of the image, approximately 30 centimeters from the work; to animate it and stay in front of it for the duration of the animation.

- if you present the experience as part of an animation, favor the use of a tablet for a collective experience; for an individual experience, invite the audience to bring their headphones or earphones for an optimal sound experience
